**Comments for Public Posting:** Dear Shine Ling and City Council Members, I learned the City plans to install large digital billboards at several locations, including at the 90 freeway intersection with Culver Boulevard. I agree with Mike Bonin's June 1, 2022 Comment Letter: The proposed project is clearly for revenue generation purposes, digital billboards are self-evidently dangerous, and the Ballona Wetlands are a critical coastal resource. When regularly driving to SoFi stadium, I exit the Manchester exit, and there is a large digital billboard that is assaulting to the eyes, distracting to the drivers, and out of place for the area. I most definitely do not want that light pollution and driving distraction at the highway 90/Culver Blvd. area. I urge you to say no to the currently proposed Metro Transit Communication Network. Los Angeles deserves better. Respectfully, Kent Vinson President, Board of Directors Villa San Remo 13236 Fiji Way, Unit K Marina Del Rey, CA 90292
