**Council File No:** 23-1334

**Comments for Public Posting:** Dear Councilmember Raman, The SLIA supports your efforts towards a community-driven master plan and visioning effort for south Griffith Park. This park, while not in Silver Lake, serves many residents of our neighborhood and is an essential community asset that enhances the lives of all Los Angeles residents. Funding necessary improvements is important. The Griffith Park Adult Community Center (GPACC) serves many of our older community residents. GPACC has been promised a permanent home for many years, but nothing has materialized as its' hundreds of members meet in a temporary and decaying building in a parking lot. Further, the Griffith Park pool has been closed for years, and its' revitalization would serve the many younger residents of the area. A combined adult and community center would be highly beneficial to this part of Los Angeles. Park activities, classes, and community organizations could use the facility. The Council District could have a space there, and community groups such as the SLIA and the Silver Lake Neighborhood Council, could have a place to meet. We thank you for your efforts and will offer our assistance to support this project when needed. Sincerely, Scott Plante President
