

## Communication from Public

**Name:** B. Broide

**Date Submitted:** 12/24/2023 04:15 AM

**Council File No:** 20-1004-S1

**Comments for Public Posting:** There is no budget estimate for any of the work described. The City has used nearly a half million dollar grant to come to this point in a council file item that was initiated three years ago. How can any of the recommendations be considered without having any idea as to what the improvements in the various tiers will cost? This is important as taxpayers want to know what the OLYMPIC games will cost the City as taxpayers were promised that no City funds would be needed and no new facility expenses needed. Yet, with proposed changes in, for example, the Sepulveda Dam basin, that appears to not be true. Remember that there is meant to be transparency in government affairs. Because the Olympic Committee operates outside of the City the public has no idea as to what is happening and what agreements were forged and what the CITY may be on the hook for. This is important to those of us who worry that the City's financial situation could be impacted by the Olympic Games. What is the exposure of the City???
