Comments for Public Posting: Dear Committee Members, I am writing to support Sunset for All. I live a block off Sunset in Silver Lake. As a driver, bicycle rider, and a transit rider, I strongly support sunset for all. The time is far past due for us to take cycling seriously in LA. With the advent of electric micro-mobility such as e-bikes, LA has the chance to greatly reduce greenhouse gas emissions and vastly improving quality of life by making safe corridors for active transpiration. Let's move that forward today by supporting Sunset for All. Alex Duchon Los Angeles, CA
