Dear PLUM Members: We are living in era when government sees transparency as an inconvenience, and not as the bedrock of a democracy. Please show the public that LA operates in daylight, not darkness. To date, there is no staff report or draft amendment available to the public. This limits the ability of the public to exercise its due process rights at this public hearing. Further, if the amendment opens up more sites, then the amendment may require a CEQA clearance. The City Council must first make the amendment and staff report available to the public prior to a public hearing. Secrecy is inappropriate. Transparency is essential. Please reschedule this hearing when a draft amendment and staff report are available to the public 72 hours in advance of the hearing. Laura Lake, Ph.D. Fix The City
