

TRANSPORTATION

MOTION

The intersection of Barham Boulevard and Lake Hollywood Drive is less than 200 feet from the intersection of Barham Boulevard and De Witt Drive. Without a capital signal upgrade, timing cannot be altered for the combined operations of the signals to facilitate longer green phases for westbound Lake Hollywood Drive traffic. Such longer signal timing for this traffic movement is important due to the intersection being the only point of egress directly onto Barham Boulevard for the Hollywood Knolls community and communities further to the east.

I THEREFORE MOVE that the City Council instruct the Department of Transportation (LADOT) to upgrade the signal equipment at the Barham Boulevard/Lake Hollywood Drive and the Barham Boulevard/De Witt Drive intersections as needed to modify the phasing and improve the traffic signal's operation.

I FURTHER MOVE that \$50,000 be transferred / appropriated from the AB1290 Fund No. 53P, Account No. 281204 (CD 4 Redevelopment Projects – Services) as follows: \$22,000 to a new Account in the Transportation Trust Fund No. 840-94, entitled "CD4 Barham and Lake Hollywood Traffic Signal Upgrades," AND \$28,000 to the Transportation Fund No. 100-94, Account No. 001090 for Staff Design, Signal Timing, and Field Implementation costs.

I FURTHER MOVE that LADOT be authorized to make any corrections, clarifications or revisions to the above fund transfer and amendment instructions, including any new instructions, in order to effectuate the intent of this Motion, and including any corrections and changes to fund or account numbers; said corrections / clarifications / changes may be made orally, electronically or by any other means.
