Dear City Counsel,

The community has been plagued with loud outbursts along with foul language which takes away from the natural order of business. This type of behavior and expression is not a reflection of progress and it is not a model of how we come to solutions. Myself and other community members deserve a space where diverse perspectives can thrive with mutual respect. What's being asked for is a platform where ideas and perspectives can be discussed where differing ideas can co-exist without fear or intimidation.

Please, prioritize the values by setting clear expectations for civility. Ensure that Council Meetings remain a place where all members of our community feel welcome and empowered to participate.

Thank you for your time and consideration,
