A Neighborhood Council Community Impact Statement (CIS) has been successfully submitted to your Commission or City Council. We provided information below about CISs and attached a copy of the CIS.

We encourage you to reach out to the Community Impact Statement Filer to acknowledge receipt and if this Community Impact Statement will be scheduled at a future meeting. Neighborhood Council board members are volunteers and it would be helpful if they received confirmation that you received their CIS.

The CIS process was enabled by the to Los Angeles Administrative Code §Section 22.819. It provides that, "a Neighborhood Council may take a formal position on a matter by way of a Community Impact Statement (CIS) or written resolution." NCs representatives also testify before City Boards and Commissions on the item related to their CIS. If the Neighborhood Council chooses to do so, the Neighborhood Council representative must provide the Commission with a copy of the CIS or resolution sufficiently in advance for review, possible inclusion on the agenda, and posting on the Commission's website. Any information you can provide related to your agenda setting schedule is helpful to share with the NC.

If the CIS or resolution pertains to a matter *listed on the Commission's agenda*, during the time the matter is heard, the designated Neighborhood Council representative should be given an opportunity to present the Neighborhood Council's formal position. We encourage becoming familiar with the City Council's rules on the subject. At the Chair's discretion, the Neighborhood Council representative may be asked to have a seat at the table (or equivalent for a virtual meeting) typically reserved for City staff and may provide the Neighborhood Council representative more time than allotted to members of the general public. They are also permitted up to five (5) minutes of time to address the legislative body. If the CIS or resolution pertains to a matter *not listed on the agenda*, the designated Neighborhood Council representative may speak during General Public Comments.

We share this information to assist you with the docketing neighborhood council items before your board/commission. If you have questions and/or concerns, please contact the Department of Neighborhood Empowerment at empowerla@lacity.org.

Email: administration@losfeliznc.org

The Board approved this CIS by a vote of: Yea(19) Nay(0) Abstain(0) Ineligible(0) Recusal(0)

Date of NC Board Action: 08/20/2024

Type of NC Board Action: For

Impact Information

Date: 08/31/2024

Update to a Previous Input: No

Directed To: City Council and Committees

Council File Number: 24-0602

City Planning Number:

Agenda Date:

Item Number:

Summary: Since 2023 when SB 676 was signed into law, Los Angeles has had an opportunity to consider the regulation and possible banning of artificial turf installations throughout the city. In the past, Artificial Turf was touted as a more sustainable landscaping choice. However, the promises of water savings never delivered and additionally we've seen turf contribute to the heat island effect as well as the loss of water permeability. Also, during the greatest loss of biodiversity in human history, the use of turf further decreases livable habitat for wildlife. Additionally, synthetic grass creates increased

health risks, not just for those who come into contact with it and the PFAs it contains, but for all Angelenos who ingest the toxic runoff from this turf in our drinking water. As noted in the Council File, the EPA links exposure to PFAs with reproductive defects, developmental delays, and cancer risk.
