The Honorable City Council
Room No. 395
City Hall

REVISED STREETS OF SIGNIFICANCE (SOS) – LOS ANGELES COUNTY METROPOLITAN TRANSPORTATION AUTHORITY'S PURPLE LINE EXTENSION PROJECT

As recommended in the accompanying report of the City Engineer, which this Board has adopted, the Board of Public Works recommends that the City Council:

1. AUTHORIZE the City Engineer, Chair of the Transportation Construction Traffic Management Committee, to revise the SOS within the existing Impact Area "Q" of the Major Transit and Transportation Construction Impact Areas for the Los Angeles County Metropolitan Transportation Authority's Purple Line Extension Project, Section 1; and
2. FORWARD a copy of this report to the City Council for its information.

(W.O. E6000011)

Fiscal Impact: There is no impact to the General Fund.

Sincerely,

TJ KNIGHT,
Asst. Executive Officer, Board of Public Works

Bureau of Engineering
Report No. 1

December 18, 2024
CD Nos. 5, 10, and 13

ADOPTED BY THE BOARD
PUBLIC WORKS OF THE CITY
of Los Angeles California

DEC 18 2024
AND REFERRED TO THE CITY COUNCIL

TJ Kemp
Executive Officer
Board of Public Works

REVISE THE STREETS OF SIGNIFICANCE WITHIN IMPACT AREA "Q" OF THE MAJOR TRANSIT AND TRANSPORTATION CONSTRUCTION IMPACT AREAS FOR THE LOS ANGELES COUNTY METROPOLITAN TRANSPORTATION AUTHORITY'S PURPLE LINE EXTENSION PROJECT, SECTION 1 (WORK ORDER NO. E6000011)

RECOMMENDING THE BOARD OF PUBLIC WORKS (BOARD):

1. AUTHORIZE the City Engineer, Chair of the Transportation Construction Traffic Management Committee (TCTMC), to revise the Streets of Significance (SOS) within the existing Impact Area "Q" of the Major Transit and Transportation Construction Impact Areas for the Los Angeles County Metropolitan Transportation Authority's (Metro's) Purple Line Extension Project, Section 1 (PLE Project, Section 1).
2. FORWARD a copy of this report to the City Council for its information.

TRANSMITTALS

1. Copy of Bureau of Engineering (BOE) Board Report No. 3, adopted on January 29, 2014, authorizing the City Engineer to implement Impact Area "Q" for the PLE Project, Section 1, and the City of Los Angeles (City) Wilshire Bus Rapid Transit (Wilshire BRT) Project.
2. Metro letter, PLE Project, Section 1, requesting removal of the SOS for Traffic Impact Area "Q," dated October 30, 2024.
3. Revised Impact Area "Q" Map for the PLE Project, Section 1, dated November 4, 2024.
4. Copy of minutes of the October 10, 2024, TCTMC meeting wherein the Revised Impact Area "Q" Map was adopted.

DISCUSSION

On January 29, 2014, the Board adopted the BOE's Report No. 3 to implement Impact Area "Q" for the Metro's PLE Project, Section 1, and the City's Wilshire BRT Project (Transmittal No. 1).

Metro's Purple Line Extension Project, which is composed of three sections, will extend the existing Purple Line subway westward, approximately 9.4 miles, from the existing Wilshire/Western Station through the City of Beverly Hills, terminating near the Veterans Administration Hospital in Westwood. Section 1 of the PLE Project extends the subway from the existing Wilshire/Western Station westward, 3.9 miles, along Wilshire Boulevard, ending within the City of Beverly Hills limits, near the Wilshire/La Cienega intersection.

The PLE Project, Section 1, is currently in the construction phase. Metro has requested the TCTMC to revise Impact Area "Q" to assist with the efficient movement of traffic and to minimize disruptions to the traveling public within the vicinity of the Project (Transmittal No. 2).

Concurrent to the Purple Line Extension Project was the City's Wilshire BRT Project. The Wilshire BRT Project was constructed along the same alignment on Wilshire Boulevard from Western Avenue to San Vicente Boulevard, a distance of 3.6 miles. The Wilshire BRT Project provides improved bus passenger travel times, service reliability and ridership for the existing Wilshire BRT system. A number of improvements were implemented as part of the project. They included: reconstruction of the curb lanes; asphalt overlay of the middle lanes; re-striping of traffic lanes; conversion of the existing curb lanes to peak period bus lanes in each direction; upgrades of the existing transit signal priority system; selective street widening; and installed of traffic/transit signage and pavement markings. Construction of the Wilshire BRT Project was completed on March 18, 2016.

Impact Area "Q" requires contractors, utility companies, and others who intend to perform construction activities in the designated SOS to develop the worksite traffic control plans and seek approval of the TCTMC as a requirement for obtaining a permit. The TCTMC will review the worksite traffic control plans to minimize the loss of traffic capacity and construction conflicts between contractors within the Impact Area. Permittees are required to pay the Traffic Management fee of \$283 per lane reduction, per "daylight weekday," per City block impacted. A "daylight weekday" is defined as Monday through Friday, excluding holidays, between the hours of 5:30 am and 7:00 pm, inclusive. No Traffic Management fee is charged for nights, weekends, and holidays.

The Los Angeles Department of Transportation, Metro, and BOE collaborated on the development of the Revised PLE Project, Section 1 - Impact Area "Q" Map (Transmittal No. 3). The proposed SOS to be removed from the current Impact Area "Q" for the PLE Project, Section 1, are identified in the revised map and listed in the table below:

Streets to be Removed	From	To
W. 3 rd Street	S. Fairfax Avenue	Normandie Avenue
S. Crescent Heights Boulevard	W. 3 rd Street	W. 6 th Street
S. La Brea Avenue	W. 3 rd Street	W. 6 th Street
Highland Avenue	W. 3 rd Street	W. 6 th Street
Wilton Place	W. 3 rd Street	W. 6 th Street
Western Avenue	W. 3 rd Street	W. 6 th Street
Normandie Avenue	W. 3 rd Street	Wilshire Boulevard
6 th Street	Western Avenue	Normandie Avenue
8 th Street	Western Avenue	Irolo Street
Olympic Boulevard	Western Avenue	Irolo Street
Wilton Place	W. 8 th Street	Olympic Boulevard
Irolo Street	Wilshire Boulevard	Olympic Boulevard

December 18, 2024
Page 3

In accordance with L.A.M.C. Section 62.250, the SOS may be added or removed within a Major Transit and Transportation Construction Area as determined to be necessary for the safe and efficient movement of traffic. The revision to Impact Area "Q" shall become effective 30 days after the adoption of this report.

The TCTMC adopted the removal of the SOS within Revised Impact Area "Q" at their public meeting held October 10, 2024 (Transmittal No. 4).

STATUS OF FINANCING

There is no direct impact to the General Fund. Pursuant to City Ordinance No.175,630, the collected fees are placed in a separate trust account (Public Works Trust Fund Account No. 834) and used to defray the costs of the various departments and bureaus involved in administering the provisions of this ordinance.

Executive Officer

AUTHORITY TO ADD AREA "Q" TO THE MAJOR TRANSIT AND TRANSPORTATION CONSTRUCTION IMPACT AREAS, (WORK ORDER NO. E6000011)

RECOMMENDATION

In accordance with Los Angeles Municipal Code (L.A.M.C.) Section 62.250, authorize the City Engineer, Chair of the Transportation Construction Traffic Management Committee (TCTMC), to add the Streets of Significance (SOS) within Area "Q" to the Major Transit and Transportation Construction Impact Areas to encompass the Los Angeles County Metropolitan Transportation Authority's (METRO) Purple Line Extension Project and the City of Los Angeles Wilshire Bus Rapid Transit (Wilshire BRT) Project.

TRANSMITTALS

1. Minutes of the December 5, 2013, TCTMC meeting.
2. Map of Impact Area Q.
3. Map of the Purple Line Extension Project.
4. Map of the Wilshire BRT Project.

DISCUSSION

Background

The purpose of L.A.M.C. Section 62.250 is to minimize traffic impacts resulting from construction activity such as light rail, busway, utility, private development, street improvement, street maintenance, and major public works projects. As major transit and transportation projects are implemented, affected areas are identified and added to a list of Impact Areas. Permit activities in the Impact Areas are required to undergo an additional review by the TCTMC.

Area Q covers two projects with nearly identical alignments: the Metro's Purple Line Extension Project, Section 1 and City of Los Angeles' Wilshire BRT Project.

Metro's Purple Line Extension Project is a \$6.3 billion project that will extend the existing Purple Line subway from the existing Wilshire/Western Station westward 9.4 miles through the City of Beverly Hills, terminating near the Veterans Administration Hospital in Westwood. The project is divided into three sections for implementation. Section 1 of the Purple Line Extension Project extends the subway from the existing Wilshire/Western Station westward 3.9 miles along Wilshire Boulevard, ending within the City of Beverly Hills limits near the Wilshire/La Cienega intersection. Although the subway tunnel itself will be constructed using tunnel boring machines, the construction of the three planned stations will impact traffic along Wilshire Boulevard. Advanced utility relocations are currently underway for the Purple Line Extension, with the main design-build contract currently scheduled to be awarded in the summer of 2014.

Concurrent to the Purple Line Extension Project is the City's Wilshire BRT Project. The Wilshire BRT Project will be constructed along the same alignment on Wilshire Boulevard from Western Avenue to San Vicente Boulevard, a distance of 3.6 miles. The Wilshire BRT Project will improve bus passenger travel times, service reliability and ridership of the existing Wilshire BRT system. A number of improvements will be implemented as part of the project. They include: reconstruction of the curb lanes; asphalt overlay of the middle lanes; re-striping of traffic lanes; conversion of the existing curb lanes to peak period bus lanes in each direction; upgrade of the existing transit signal priority system; selective street widening; and installation of traffic/transit signage and pavement markings. The Board of Public Works (Board) awarded the Wilshire BRT Project to Griffith Company on June 24, 2013. Construction is scheduled to be completed in December 2014.

Per L.A.M.C. Section 62.250, an addition to the Impact Areas requires the TCTMC to submit a report to the Board for approval. The Impact Areas were developed by the Los Angeles Department of Transportation (LADOT) and reviewed by the TCTMC. The SOS are streets that are essential for the safe and efficient movement of traffic within, across, or through the Impact Areas. The TCTMC approved the establishment of Area "Q" and the SOS within Area "Q" at their public meeting held on December 5, 2013 (Transmittal No. 1). The Area "Q" Map is attached (Transmittal No. 2) along with a map of the Purple Line Extension Project (Transmittal No. 3), and the Wilshire BRT Project (Transmittal No. 4).

Area "Q" will be added to five existing designated areas that comprise the Impact Areas, identified as Areas "K", "M", "N", "O", and "P". The addition of Area "Q" will require the TCTMC to review the work plan of contractors, utility companies, and others who intend to obtain a permit to perform construction activities in the SOS, develop the worksite traffic control requirements to minimize the loss of traffic capacity, and minimize construction conflicts between contractors within the Impact Areas. Permittees are required to pay the Traffic Management Fee, which is \$275 per lane reduction, per "daylight weekday", per City block. A "daylight weekday" is Monday through Friday, excluding holidays, between the hours of 5:30 am and 7:00 pm, inclusive. No permit fee is charged for weekends and holidays.

Conclusion

It is recommended that the Board authorize the City Engineer to add Area "Q" to the Impact Areas in accordance with L.A.M.C. Section 62.250. The addition of Area "Q" will allow the TCTMC to review and coordinate traffic impacts due to construction activities adjacent to the Wilshire BRT Project.

STATUS OF FINANCING

There is no direct impact to the General Fund. Pursuant to City Ordinance No. 175,630, the collected fees are placed in a separate trust account (Public Works Trust Fund Account 4230) and used to defray the costs of the various City Agencies involved in administering the provisions of this ordinance.

SUBJECT: PLE1 Metro Letter, Revised Traffic Impact Area Q

Dear Mr. Tran,

The Los Angeles County Metropolitan Transportation Authority (METRO) Purple Line Extension Project Section 1 is hereby releasing the Streets of Significance (SOS) listed below for Area Q effective October 1, 2024. Please note we have ongoing work at other locations; however, most work can be completed with lane closures and detour routes sufficiently with the Revised Map for PLE 1 Impact Area Q as attached.

Metro appreciates the City's continued support and remains available to answer any questions you may have. Please do not hesitate to contact me at (310) 905-4147.

Sincerely,

Gino Bondoc
