Council File No: 21-1395-S1

Comments for Public Posting: We're at a critical moment in our city's history: Council has the opportunity to right a messy industrial legacy of extraction, and ensure health and safety for its constituents. As a resident of District 13, I'm writing in support of CF # 21-1395-S1 and CF #24-1521 because I'm concerned about the impact oil fields and brownfield sites are having on our health across the city. Living near or on these toxic sites has been directly linked to respiratory illnesses, cancers, and other chronic illnesses. The hazardous chemicals they release into our ecosystems aren't worth it. Unregulated development on or near these sites will only worsen a pre-existing public health crisis. The City has the power and responsibility to act to protect our communities. Moreover, we can strategically grow native plants and mycelium networks to remediate soil further, helping transmute some of the heavy metals and heal the ground while we work on longer-term solutions. I urge you to support CF# 21-1395-S1 and CF#24-1521. Thank you for all you do!

Council File No: 21-1395-S1

Comments for Public Posting: Dear Chair and Members of the Planning and Land Use Committee, My name is Ruth Rocha . I am writing in support of CF # 21-1395-S1 and CF #24-1521 because I am deeply concerned about the impact that living near oil fields and brownfield sites are having on my health and the health of communities across Los Angeles. Living near or on these toxic sites has been directly linked to dangerous chemicals responsible for respiratory illnesses, cancers, and other chronic illnesses. Unregulated development on or near these sites will only worsen a pre-existing public health crisis. The City has the power and the responsibility to act to protect our communities. I urge you to support CF# 21-1395-S1 and CF#24-1521. Thank you, Ruth Rocha
