Comments for Public Posting: I am a long-time Valley resident and have been a frequent Sepulveda Park Basin Off Leash Dog Park user since 2011. I strongly support the long-overdue restoration of the LA River in the San Fernando Valley, including the proposed bike path and improvements to the basin and park. Ignore the self-serving, NIMBY-induced hysteria being generated in opposition to this much-needed progress and reject the shameful and inhumane attacks on the homeless by selfish profiteers running unlicensed and unregulated businesses out of a public park. Please consider funding to light the parking lot and provide permanent restrooms that are ADA-accessible. It's way past time for Valley families to get their fair share of the services and opportunities provided by this funding. Thank you.
