**Comments for Public Posting:** I want to thank Council Member Yaroslavsky for her work on behalf on constituents affected by the violations of the PCEC Pipeline Franchise, and for making the motion to terminate this expired franchise. I have been following the efforts of Professor Salman on ActionNetwork, and I am extremely pleased that Council Member Yaroslavsky has been receptive to the facts uncovered by this organization. I would encourage all Council Members to vote to terminate this expired franchise - the violations have been so frequent and egregious that it is beyond time to put an end to the corporate practices which have persistently flouted the law. Please vote to terminate the franchise, in the interest of the health and safety of the people you represent. The oil industry in general should be held accountable: it needs to finally understand that legal operating requirements are more than just words on a page, and that the City of Los Angeles is going to actually enforce the law.

**Comments for Public Posting:** I have lived in the Pico-Robertson area for about two decades, and I have always been concerned about the welfare of my neighbors and the community as a whole. In my opinion, terminating the expired and long violated PCEC Pipeline Franchise Agreement is important in order to protect the environment and the health and safety of the local community and the city of Los Angeles.
