Comments for Public Posting: This is my public comment for 5/28/2025. For Item 15, the recovery needs to be more focused on rebuilding communities and less about preparing for the Olympics. The Olympics should not be taking place and are going to be a taxpayer funded celebration of Trump's fascism while unhoused people are displaced and the LAPD becomes even more violent and militarized and gets even more money. For Item 22, fuck the budget. While what is being voted on now is slightly better than what was originally proposed, this budget is still really bad and hundreds of city employees are going to be laid off and city services and programs that actually help people are going to be cut or see massive funding cuts, all to give even more money to the LAPD. Reject this budget proposal and pass the People's Budget instead.
