Summary: At its regularly monthly meeting on June 10, 2021, the Westside Neighborhood Council voted unanimously to oppose to this motion. The WNC requests the City Council postpone consideration of Council File #12-0460-S4 for a minimum of six months to enable further community presentations and feedback. The documents in this file are 900+ pages. There have been approximately 3 meetings of 1.5 hours each for Department of Planning to summarize this document and receive limited feedback. Also “technical amendments” were made prior to the PLUM committee’s June 1 consideration that incorporated more than just technical changes that need review and feedback. The Neighborhood Councils’ charter-given authority to hold public hearings and provide public comment and feedback concerning matters of land use must be restored to the Processes and Procedures amendment sections to ensure it complies with the Los Angeles City Charter and the specific authority it grants to Neighborhood Councils. The community engagement has been insufficient to conduct a full review of the substantial changes involving land use authority and procedures. The document should be reviewed in its entirety to ensure no transfer of Council authority occurs as a result of this document and that final decision regarding land use remains with Council pursuant to the City Charter. There are numerous instances where authority appears to be vested in Director of Planning, an unelected official, in violation of the Charter.
