Council File No: 23-0917

Comments for Public Posting: I am a lifetime resident of Boyle Heights and support Councilmen De Leon's proposal. Developers have seen our community as an investment and displacing us without notice. They are interested in making money not creating housing opportunity and supporting the housing crisis we are facing. We have built our lives here and deserve some security with our housing and not live in fear of being displaced because we don't have the dollars to compete with these developers. Help secure housing not create more homelessness!
