

MOTION

In 2007, Council adopted a motion accepting the Century City Neighborhood Traffic Management Plan (CCNTMP), prepared by the Los Angeles Department of Transportation (LADOT) in consultation with Council District 5, and various community and homeowner organizations.

The plan aimed to address prospective traffic and pedestrian safety issues brought about by added congestion and development in the neighborhood. As a result, the Century City Neighborhood Traffic Protection Trust Fund No. 47M was created to accept funding generated by local development to fund pedestrian and traffic safety improvements in the immediate neighborhood.

In 2024, at the request of community members concerned about traffic safety, and an increase in street takeovers citywide, leaders from the Cheviot Hills community petitioned the Council Office to explore the implementation of ALPRs (Automated License Plate Readers) in the neighborhood.

I THEREFORE MOVE that \$114,000 be transferred/appropriated from the Century City Neighborhood Traffic Protection Trust Fund, Fund 47M, Department 50, Account 50V031 titled Constellation Place Neighborhood to the Los Angeles Police Department, Fund 100, Department 70, Account 006010 Office and Administrative for the purchase and installation of automated license plate readers in the Cheviot Hills neighborhood.

FURTHER MOVE that the Executive Officer of the Board of Public Works be authorized to make any necessary technical corrections to the above fund transfer instructions in order to effectuate the intent of this motion.
