**Comments for Public Posting:** Dear Councilmember Padilla, I'm posting this comment to say we are totally against putting the bike path next to the dog park. The dog park is so important and means so much to so many dogs, people and family's lives. We need this dog park preserved! The best compromise we think should be considered would be to use the funds to fix the bike paths that have already been built, or start the bike path on the south side and change over to the north side at the bus overpass. Or maybe you, your Engineers and the planning committee can come up with a better, more creative, less expensive rerouting solution that will preserve the Dog Park? Please reconsider it and use your influence to move this away from the dog park and use the funding to fix the bike paths that already exist and need attention.
