**Comments for Public Posting:** To Whom It May Concern, I support this motion and hope you will pass it. It's outrageous that no public meeting was held about this 45 foot tower and that a mistake can mean it will be built with no input from the Eagle Rock community. We deserve to have our voices heard in a public hearing! This is our community, and we have the right to weigh in on decisions that affect it. The height also does not comply with the Colorado Specific Plan which is super important in maintaining the unique look and feel of Eagle Rock. Why should Verizon be the ones that an acceptance is made? Kind regards, Nick Coles Eagle Rock Resident

**Comments for Public Posting:** The project is a gross violation of the Colorado Blvd. Specific Plan, a law that was passed to protect our community from reckless, inappropriate development just like this.

**Comments for Public Posting:** I have been a homeowner living in Eagle Rock for over 22 years. What attracted me, and has kept me in this community is the sense of community, along with the preservation and beautification of this small town. This project is a gross violation of the Colorado Blvd. Specific Plan, a law that was passed to protect our community from reckless, inappropriate development just like this. Our neighborhood was not given the opportunity to have our voices heard in a public hearing! This is our community, and we have rights to weigh in on decisions that affect us, especially those that could have a negative impact on our property values, possible health implications, and permanently scar Colorado Blvd.

**Comments for Public Posting:** I have lived in Eagle Rock for over 20 years. I have lovingly restored my 1919 Craftsman and take great pride in the architecture of our unique community. This project is a gross violation of the Colorado Blvd. Specific Plan, a law that was passed to protect our community from reckless, inappropriate development just like this. I live practically across the street and will have to live with looking at this gross violation ever day. It is not reflective of the unique architecture or the community that I live in. We were denied the opportunity to have our voices heard in a public hearing on more than one occasion! This is our community, and we have the right to weigh in on decisions that affect it.

**Council File No:** 24-0701

**Comments for Public Posting:** My name is Kurt Voelker, and I have been a homeowner in Eagle Rock for 22 years. I think it is outrageous that the Department of City Planning has approved Verizon's plan to build a 45-foot, 3-story cell tower on Colorado Blvd in the heart of our treasured community. My neighbors and I care deeply about the character, beauty and historic preservation of Eagle Rock. This terrible eyesore will not only be a scar on our central thoroughfare, it blatantly violates the law that is supposed to protect it, the Colorado Boulevard Specific Plan. Most egregious of all is the fact that this project was approved WITHOUT A PUBLIC HEARING -- sending a very loud message to all of us in Eagle Rock that how we feel about it doesn't matter. I strenuously urge the Planning & Land Use Management Committee to place Councilmember Kevin De Leon's motion on the matter on the Committee's agenda, and that the Committee recommend to the City Council that they approve the motion and instruct the Department of City Planning to rescind its erroneous and unacceptable approval of this project. Thank you.
