Comments for Public Posting: Dear LA City Council My family lives two lots away from the proposed vacation, and we strenuously object to the city vacating this valuable public right of way. This public space provides green space, and the only safe pedestrian passage from the Crestmont tract down to Effie St and Sunset Blvd. There is a lot of vehicle and foot traffic in the area, and this right of way has the only safe crosswalk with a stop sign across Effie St. We use it every day to get our children safely to and from school. Please don't let this land-grab by private interests take place. The land would be so much better used as a walkway and park for the neighborhood, which does not have much public green space. Look to the huge success of the Sunset Triangle park nearby, and please vote to keep our neighborhood space public and accessible for all. Thank you Alex Scott
