Subject: Demand of Rent Freeze / Eviction Moratorium

To: <CityClerk@lacity.org>

It is highly imperative for all citizens of Los Angeles county to receive rent relief including an eviction moratorium through Jan 2026 to help us all to recover and rebuild from the devastating fires and to have some respite to allow ourselves some mental and physical rest to take properly take care of ourselves following the chaos of all these disasters (both weather and political) have caused us. We demand a full and immediate rent freeze and eviction moratorium through Jan 31, 2026 to help get us through. We also demand that proper attention be paid to and appropriate action taken against apathetic developers and corrosive management companies like and including Braum Real Estate who continually and illegally circumvent building repairs, appliance replacement, ignore health codes, and refuse upkeep in the name of being cheap.
