Subject: Please Appeal the CPC approval of the Harvard Westlake River Park CPC-2020-1511- VCU-SPR

Dear Mayor, City Council President, and honorable members of the Planning Land Use Management Committee, and City Council.

THIS PROJECT IS TOO BIG!

As a Los Angeles resident, I ask you to appeal the City Planning Commission's Approval of the River Park project Case No. CPC-2020-1511-VCU-SPR, ENV-2020-1512-EIR Harvard-Westlake athletic facility project at [4047 – 4155 North Whitsett Avenue](#); [12506 – 12630 West Valley Spring Lane](#) ("Project"). Although this project is in CD4, this project will be brought to Plum on November 7th, it could possibly be brought to vote by the City Council.

I want to remind you the City Planning Commission had two members who are alumni of the applicant, Harvard Westlake: Commissioner President Samantha Millman and VP Caroline Choe who chose to not recuse themselves. By the way, Ms. Choe is a founding board member of the Harvard-Westlake Korean-American Alumni Network, not exactly as she said, 'far removed' from this project. This project is slated to be utilized for Harvard Westlake alumni fundraising events.

I am among thousands of local residents, environmental groups, recreational groups, and conservationists believe this development is just too big for this massive athletic facility on an area the public has enjoyed with hundreds of mature trees and green open space. I believe this school, in its copious resources, is able to find a better suitable location elsewhere for their extracurricular sports activities.

I am against this project due to the adverse environmental impacts, its limited public use, its potential to host 2000 person events even larger than the Ford Ampitheater (1200 person capacity), inclusion of artificial turf with PFAS forever chemicals, the local climate effect of heat islands created, increased noise pollution, and the burden it will be on the community in its two to three year potential construction time (noise, traffic, respiratory dangers).

Sincerely,

Zip Code:

Dear Mayor, City Council President, and honorable members of the Planning Land Use Management Committee, and City Council.

Please stop this project from moving forward. It is another example of billionaires doing what they want with no care about who they harm. With our industry facing a similar battle right now, how can you NOT want more answers? How can you NOT demand that the voice of tens of thousands of citizens outweigh those of 900? How can you NOT stop this from moving forward?

The sad, ironic truth is, in this scenario the school is the bully and the neighborhood is about to get its ass kicked unless someone, like you and the city of LA, steps in and keeps the original zoning, in stone. These bullies have their support from CD4 – a district that runs as far west as Reseda & as far east as Silverlake – and most, as we've seen, have some connection to HW. These "supporters" don't live here. Their neighborhood will not be destroyed. What if they were demolishing a green space in their backyard? I have a feeling their support might change. You can't have passionate pleas to violently uproot (literally) our neighborhood, from strangers that live 10 miles away.

This is the largest land development project in Studio City on the last 16 acres of open green space on the L.A. River used by over 100,000 Angelenos annually and for the litany of reasons I, am many others have put forward - adverse environmental impacts, its limited public use, its potential to host 2000 person events even larger than the Ford Amphitheater (1200 person capacity) to name a few - this project does not meet the requirements of a CUP and should be denied.

Respectfully,

Charlotte Glover
Studio City, CA 91604

Dear Mayor, City Council President, and honorable members of the Planning Land Use Management Committee, and City Council.

PUBLIC CONCERNS REGARDING THIS OVERREACHING PROJECT ARE "NOT ABOUT A PRIVATE SALE BETWEEN TWO PRIVATE INDIVIDUALS".

As a Los Angeles resident, I ask you to appeal the City Planning Commission's Approval of the River Park project Case No. CPC-2020-1511-VCU-SPR, ENV-2020-1512-EIR Harvard-Westlake athletic facility project at [4047 – 4155 North Whitsett Avenue](#); [12506 – 12630 West Valley Spring Lane](#) ("Project"). Although this project is in CD4, this project will be brought to Plum on November 7th, it could possibly be brought to vote by the City Council.

I want to remind you the City Planning Commission had two members who are alumni of the applicant, Harvard Westlake: Commissioner President Samantha Millman and VP Caroline Choe. Scandalously, they chose to not recuse themselves. By the way, Ms. Choe is a founding board member of the Harvard-Westlake Korean-American Alumni Network, not exactly as she said, 'far removed' from this project. This project is slated to be utilized for Harvard Westlake alumni fundraising events.

*****I am among thousands of local residents, environmental groups, recreational groups, and conservationists believe this development is inappropriate for this massive athletic facility on area the public has enjoyed with hundreds of mature trees and green open space. I believe this school, in its copious resources, is able to find a better suitable location elsewhere for their extracurricular sports activities.

*****THIS IS A RESIDENTIAL NEIGHBOURHOOD. What HW is proposing is wrong and not good for anyone except the school and their private associates.

*****They have lied to us since the beginning about public access. Please keep our city green.

*****I am against this project due to the adverse environmental impacts, its limited public use, its potential to host 2000 person events even larger than the Ford Ampitheater (1200 person capacity), inclusion of artificial turf with PFAS forever chemicals, the local climate effect of heat islands created, increased noise pollution, and the burden it will be on the community in its two to three year potential construction time (noise, traffic, respiratory dangers). Like more than 74% of my neighbours, I am deeply opposed to this overreaching project.

Michael Snetsinger

Los Angeles
