

## Communication from Public

**Name:** Bella De Soto

**Date Submitted:** 03/26/2025 01:24 AM

**Council File No:** 25-0292

**Comments for Public Posting:** I move against your Motion, while I was not able to submit this comment earlier. Your hearing today was most concerning, calling for the fast tracking of permits and circumventing of CEQA that will allow developers to build on contaminated property across the City of Los Angeles. They are using the excuse of the tragic fires to push this on the people at the expense of public health and the environment. This action is most inhumane, antithetical to a just society, but sadly continues functioning in an unbalanced paradigm! Bella De Soto
