Summary: The DRNC supports CF 21-1463 (Koretz/Krekorian/Raman) which calls for a comprehensive report within 120 days on strategies to achieve zero carbon emissions in new and existing buildings in the City of LA in a way that is cost-effective and fair to both renters and owners. The City must expand its efforts to eradicate the pollution that plagues vulnerable communities and combat climate change. Building decarbonization, a city-wide goal outlined in LA's 2017 Green New Deal, represents one of the biggest opportunities to accomplish these goals.
