**Comments for Public Posting:** Yes to cameras on buses ticketing cars parked in bus lanes. Yes to civilians being able to send in evidence of this as well. Yes to a bus system which isnt so terrible to use.

**Comments for Public Posting:** Speak to bus drivers regularly asking them about their job. One of the issues which comes up repeatedly is cars and other vehicles blocking the path of the bus. Any bus lane is likely to be jammed often. Same for bicyclists and bike lanes. Our public transportation system and safety cannot be properly run nor efficient above individual automobiles if we don't enforce our laws and prioritize the good functioning of alternatives to cars - we need a robust bus and bike infrastructure where people are fined for blocking bus and bike path
