Summary: Refers to City Council file 22-1476 The Board of Officers of the Venice Neighborhood Council files a CIS supporting ending automatic street dedications, as present in Council File 22-1476 for the following reasons: - Spot widening leads to poorly designed, incoherent streets - Spot widening often converts greenery to impermeable asphalt. - Widening can add hundreds of thousands of dollars to the cost of a housing development, as it may include utility relocation, moving street lights and signal boxes, and tree replanting.
