Comments for Public Posting: Please support eviction protections and also rent freezes and relief for the tenant populations that are often hardest hit by post-disaster displacement and gentrification, whether or not they live in an area that has been directly affected. Please also support unemployment relief for domestic workers, gardeners, and others who lost income due to the fires but may not have formal work contracts or documentation. And additional pay, recognition, and longer-term support for the incarcerated firefighters who play an under-remunerated part in supporting firefighting efforts here and statewide.
