Dear Los Angeles City Council,

The California Housing Defense Fund ("CalHDF") submits this letter to remind the Commission of its obligation to abide by all relevant state laws when evaluating the proposed 489-unit housing development project at 6136 West Manchester Avenue, which includes 64 units for very low-income households. These laws include the Housing Accountability Act ("HAA") and the Density Bonus Law ("DBL").

The HAA provides the project legal protections. It requires approval of zoning and general plan compliant housing development projects unless findings can be made regarding specific, objective, written health and safety hazards. (Gov. Code, § 65589.5, subds. (d), (j).) The HAA also bars cities from imposing conditions on the approval of such projects that would render the project infeasible or reduce the project's density unless, again, such written findings are made. (*Id.* at subd. (d).) As a development with at least two-thirds of its area devoted to residential uses, the project falls within the HAA's ambit, and it complies with local zoning code and the City's general plan. Increased density, concessions, and waivers that a project is entitled to under the DBL (Gov. Code, § 65915) do not render the project noncompliant with the zoning code or general plan, for purposes of the HAA. (Gov. Code, § 65589.5, subd. (j)(3).) The HAA's protections therefore apply, and the City may not reject the project except based on health and safety standards, as outlined above.

CalHDF also writes to emphasize that the DBL offers the proposed development certain protections. The City must respect these protections. In addition to granting the increase in residential units allowed by the DBL, the City must not deny the project the proposed waivers and concessions with respect to FAR, side yard, residential units on the ground floor, transitional height requirements, and front setback. For requested waivers, Government Code section 65915, subdivision (e)(1) requires findings that the waivers would have a specific, adverse impact upon health or safety, and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact. For requested concessions, Government Code section 65915, subdivision (d)(1) requires findings that the concessions would not result in identifiable and actual cost reductions, that the concessions would have a specific, adverse impact on public health or safety, or that the concessions are contrary to state or federal law. The City, if it makes any such findings, bears the burden of proof. (Gov. Code, § 65915, subd. (d)(4).) Of note, the DBL specifically allows for a reduction in required accessory parking in addition to the allowable waivers and concessions. (*Id.* at subd. (p).) Additionally, the California Court of Appeal has ruled that when an applicant has requested one or more waivers and/or concessions pursuant to the DBL, the City “may not apply any development standard that would physically preclude construction of that project as designed, even if the building includes ‘amenities’ beyond the bare minimum of building components.” (*Bankers Hill 150 v. City of San Diego* (2022) 74 Cal.App.5th 755, 775.)

Regarding the appeal of the project approval, CalHDF would like to remind the City that failure to certify the Sustainable Communities Environmental Assessment could constitute disapproval of the project pursuant to the HAA. (Gov Code, § 65589.5, subd. (h)(6)(j).)

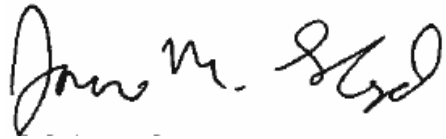

As you are well aware, California remains in the throes of a statewide crisis-level housing shortage. New housing such as this is a public benefit: by providing affordable housing, it will mitigate the state’s homelessness crisis; it will bring new customers to local businesses; it will grow the City’s tax base; and it will reduce displacement of existing residents by reducing competition for existing housing. It will also help cut down on transportation-related greenhouse gas emissions by providing housing in denser, more urban areas, as opposed to farther-flung regions in the state (and out of state). While no one project will solve the statewide housing crisis, the proposed development is a step in the right direction. CalHDF urges the City to approve it, consistent with its obligations under state law.

CalHDF is a 501(c)(3) non-profit corporation whose mission includes advocating for increased access to housing for Californians at all income levels, including low-income households. You may learn more about CalHDF at www.calhdf.org.

Sincerely,

A handwritten signature in blue ink, consisting of a series of loops and a long horizontal stroke extending to the right.

Dylan Casey
CalHDF Executive Director

A handwritten signature in black ink, appearing to read "James M. Lloyd". The signature is written in a cursive, flowing style with a large initial "J" and "M".
