Comments for Public Posting: I'm against this proposed building project. There are too many taller apartment dwellings which house too many people encroaching on ranch and active horse areas. This will not go over well.

Comments for Public Posting: Please shut down this project. This is a community of one story single family homes on larger lots were farm animals and horses are still allow. Hence the name Reseda Ranch. First this 70' building will intruding on privacy from the upper floor windows. It will also block out sun to surronding lots. Wilbur is a fairly busy street, but it's all houses. This type and size of building needs to be around other building of the same size, and other apartment and commercial building. I understand there is a need for affordable housing, but this is the wrong spot. This should be located walking distance to the Metro Orange line. The only puplic transportation around this location is busses. PLEASE RECONSIDER THIS! Thank You Jeff Kravitz
