Comments for Public Posting: I've lived in Silver Lake for 22 years. Every time I'm about for a walk and I walk by or up or down the Slope Park in Maltman, I smile. It seems so improbable that the space is there and it provides enjoyment to people who pass by. I am for development in the neighborhood, and I'm also for preserving open space that pedestrians can use. In the case of the Slope Park, any development on that lot will not yield many additional units, but eliminating the public right away will diminish the enjoyment for pedestrians like me. For these reasons, I am against the street vacation.

Comments for Public Posting: Please do not allow even more multiplex buildings in this formerly quiet “neighborhood” despite its single-family designation. Homes are remodeled, then post multiple addresses at the mailbox, making for crowded streets and difficulties finding space for trash receptacles on pick-up days. Those developers who remodel older homes into huge eyesores but who then rent the homes at exorbitant prices force new tenants into sharing the space in order to pay the rent but that causes putting more cars on the already crowded street, making things hard for everyone in the neighborhood. Having the open space of Slope Park is a welcome refuge. Please don’t completely destroy this neighborhood.

Comments for Public Posting: This park is very important for our walking path. My dog loves it there, it's her favorite part of our walk down to sunset. Especially on a hot day, it's a welcome respite from the sun filled neighborhood. If it didn't exist, I don't think I would make i I would greatly appreciate it if the park stayed.
