

Dear L.A. City Councilmembers,

2.26.25

My name is Daniel French and I'm a CD8 resident concerned about the hands off approach to increasing hate speech during public council meetings.

I've recently heard hate speech including anti-immigrant slurs & anti-black slurs from public comment during city council meetings. Allowing this type of behavior to stand in our great halls of dialogue & public debate threatens the very safety of all to participate.

This type of behavior is not okay, is not normal, is not befitting the greatest city in the 5th largest economy on planet Earth.

I urge city hall to ensure this rising wave of hate is stopped in its tracks during public meetings. We don't all have to get along, but there's no room for hate here. Lead the way LA.

Thank you for reading, respectfully

Daniel French
