

## RESOLUTION RULES, ELECTIONS, INTERGOVERNMENTAL RELATIONS

WHEREAS, any official position of the City of Los Angeles with respect to legislation, rules, regulations, or policies proposed to or pending before a local, state or federal governmental body or agency must have first been adopted in the form of a Resolution by the City Council; and

WHEREAS, existing law authorizes the legislative body of a city or a county to designate a proposed enhanced infrastructure financing district to finance public capital facilities or other specified projects, with a governing body referred to as the public financing authority, by adopting a resolution of intention to establish the proposed district; and

WHEREAS, existing law authorizes a city, county, city and county, special district, or a combination of any of those entities to form a climate resilience district, as described, for the purposes of raising and allocating funding for eligible projects and the operating expenses of eligible projects; and

WHEREAS, existing law deems each district to be an enhanced infrastructure financing district and requires each district to comply with existing law concerning enhanced infrastructure financing districts, except as specified; and

WHEREAS, existing law requires a district to finance only specified projects that meet the definition of an eligible project, including projects that address sea level rise, extreme heat, extreme cold, the risk of wildfire, drought, and the risk of flooding, as specified; and

WHEREAS, currently pending in the California State Senate is SB 782 (Pérez), that would authorize a city or county to adopt a resolution providing for the division of taxes of any participating entity without following specified procedures for the preparation and adoption of an infrastructure financing plan, if certain conditions are met; and

WHEREAS, the bill would require the district to hold a public meeting to consider the resolution of intention to establish the district and a second public meeting to consider the adoption of the infrastructure financing plan, and would require the district to post specified notices prior to the meetings; and

WHEREAS, the bill would require the resolution to include specified information, including that incremental property tax revenue from the city or county and all affected taxing entities within the district may be used to finance the district's activities; and

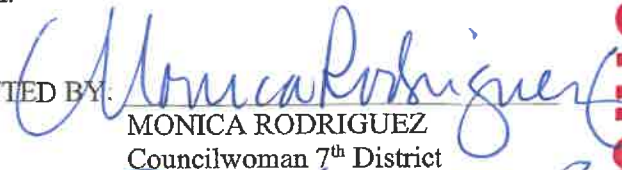

WHEREAS, the bill would require the district to make the infrastructure financing plan available for public inspection at least 10 days before the hearing to approve the formation of the district, and would require the designated official of the district to consult with each affected taxing entity prior to development of the infrastructure financing plan; and

WHEREAS, the bill would limit the use of the district's revenue to repairing or replacing buildings, low- and moderate-income housing, facilities, structures, or other improvements within the district, that have been damaged or destroyed by a disaster, as defined, or addressing the risk of a future disaster; and

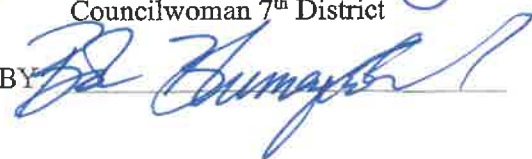

WHEREAS, the bill would define disaster for these purposes to mean any flood, fire, hurricane, earthquake, storm, tidal wave, or other catastrophe for which the Governor has certified the need for assistance and which the President of the United States has determined to be a major disaster, as specified.

NOW, THEREFORE, BE IT RESOLVED, with the concurrence of the Mayor, that by the adoption of this Resolution, the City of Los Angeles hereby includes in its 2025-2026 State Legislative Program SUPPORT for SB 782 (Pérez), which would authorize the establishment of Enhanced Infrastructure Financing District: Climate Resilience Districts to accelerate community recovery by providing funding through a community-based approach.
