

MOTION

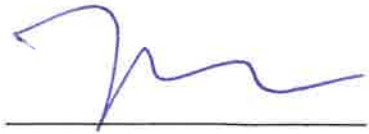

The Los Angeles Municipal Code (LAMC) currently includes definitions that unnecessarily restrict the City's authority as granted by the State of California. A simple change to the LAMC would restore to the City the full power authorized by the State and would put the City in alignment with State Government Code.

I MOVE that the City Council request the Department of City Planning (DCP), in consultation with the Office of the City Attorney, propose revisions to Los Angeles Municipal Code (LAMC) section 12.80 in order to harmonize with the definition of "Homeless Shelter" found in California Government Code Section 8698.4(c)1.
