Comments for Public Posting: I support the Draft #3 of the Housing Element/CHIP Ordinance, as presented by the Planning Department, without regard to the Exhibit D “options” that would open up single-family neighborhoods. The Planning Department in its report clearly states that they have found enough zoning in other areas to meet the State’s mandate for housing without the need to rezone our single-family areas. It is important for people of all interests, values, and backgrounds to have the opportunity to live in a community that they can thrive in. I moved to Shadow Hills for the equestrian properties and it is important to me and my friends that we always have the current right to have our horses on our lots. Keeping the single-family zoning will go a long way to protect our rights. I am also tired of government, at all levels, either being ignorant of wording or purposely ignoring the plans of developers to keep creating unaffordable housing under the guise of "not enough homes". They are like locusts that come in, ravage a community by creating population density that infrastructure cannot support, and then leave with millions of dollars in their pockets. We have rights as citizens too.
