Comments for Public Posting: Dear Public Works Committee, Thank you to Mayor Bass for focusing on our basic infrastructure. This is an unprecedented level of investment in sidewalks made possible by her budget proposal. And thank you to Council and especially Councilmember Blumenfield for asking the question of how that new investment can result in the greatest improvement to our sidewalks. Lastly, thank you to the Public Works Bureaus for starting to outline an investment strategy that thinks beyond Willits and starts to invest in managing our sidewalks like the important public infrastructure they are. Sincerely, Jessica Meaney Investing in Place jessica@investinginplace.org
