

MOTION

In April 2022, the City of Los Angeles and the LA Alliance for Human Rights came to a settlement agreement, aiming to open enough beds by 2027 to accommodate 60% of the unsheltered population in each Council District or citywide. This commitment involves establishing and operating 12,915 new beds between June 14, 2022, and June 13, 2027. As of September 30, 2023, 8,455 beds are open or in progress, contributing to the City's adherence to the Alliance settlement. To meet this commitment, an additional 4,460 beds or units must be added by June 13, 2027.

The Court will maintain jurisdiction until 2027 to enforce the settlement agreement. The City is tasked with setting deadlines and targets for shelter and/or housing creation and encampment reduction, sharing these with the plaintiffs involved. Collaborative efforts will address concerns, with the possibility of seeking resolution through Court consultation if necessary.

The City must ensure that it is continuing to progress toward fulfilling the settlement.

I THEREFORE MOVE that the City Administrative Officer and the City Legislative Analyst, with assistance from the City Attorney, provide the entire City Council with quarterly written reports and updates on the ongoing status of the LA Alliance case.

Ly **I FURTHER MOVE** that any revisions or changes to the agreement be promptly communicated to the entire City Council for approval. *pre approved*

I FURTHER MOVE the City Legislative Analyst to be included in all conversations the City Administrative Officer and City Attorney have with the plaintiff.
