

Communication from Public

Name: Affected Sun Valley Resident

Date Submitted: 03/09/2024 08:37 AM

Council File No: 24-0008-S6

Comments for Public Posting: This is a very important resolution for Sun Valley. But having a resolution and enforcing it is a completely different issue. There have been many oversized vehicles parking resolutions before. HOWEVER, these resolutions were NEVER OUT INTO REAL ACTION. DOT, Parking Enforcement continue to ignore these resolutions. What good is a resolution when it is not enforced? Because of this inaction of parking enforcement, nearly all Sun Valley streets, both residential and commercial, are severally impacted by clustered RVs obstructing sidewalks, spreading trash around them, overflowing bulky items in the streets, stealing from power polls, destroying city property, inviting crime and drugs to the neighborhoods, creating jammed and constricted sidewalks, road lanes, and dangerous conditions for both pedestrians and drivers on these roads. PARKING ENFORCEMENT enforcement should be held ACCOUNTABLE for not implementing these resolutions. RVs that are in these restricted zones between the hours 2-6am, should be cited and later on removed if they continue violating parking rules. That's the least the city can do to rid the city from RVs. The community would not be a victim of RVs and in the horrific conditions it is today. If there is a RESOLUTION, then there's got to be AN IMMEDIATE AND TIMELY ENFORCEMENT. People should not stay up until 2am to report violators under Penrose underpass, Strathern, Ratner, San Fernando, Randall, Bradley. It is ultimately parking enforcement's responsibility to carry out its duty of protecting our streets from violators such as RVs, because we don't see an RV ordinance, enforcing parking seems to be the only working measure. Violators should be cited the first few times, then impounded - PERIOD. Parking Enforcement has never been held accountable. That's the problem. Other than that, this is just one of many Oversized Parking Resolutions that will always stay on a paper; unless Council District 6 introduces a motion to penalize parking enforcement for non-compliance. It would help to an RV ORDINANCE IN PLACE.
