Comments for Public Posting: Digital billboards are very distracting to drivers, and cause accidents. They are unattractive and dangerous. Please, do not allow them in our city. Thank you. Elizabeth

Comments for Public Posting: I strongly oppose Metro's TCN plan. It would seem that the purpose of a transportation communication network should be to provide information for the public about public transportation -- using the models that are found in transportation-savvy cities such as London -- schedules, arrival times, etc. With enough visual clutter in our city, please reject the advertising digital displays -- they are distracting and ugly and don't belong in our city.
