Comments for Public Posting: I am appalled and confused as to why the City of LA will even consider this terrible resolution. Magan Am is a well known racist supremacist group. They are hardcore Zionists which is a racist supremacist ideology. Getting them to provide "security" is akin to deputizing the KKK to police LA neighborhoods. In fact, some counties in the US did in deputize the KKK at one point in history to help with policing and it was the deadliest time period for people of color in these counties. Magan Am and their fellow Zionist groups have been the cause of all violence in the city with regard to anti-genocide protests. The City Councilmembers calling for this resolution to be voted on are corrupted and compromised. I would hope that the rest of the Council will have more sense than to fund and deputize one of the most racist supremacist organizations in the nation. They should be labeled a terrorist group and banned from the US.
