**Comments for Public Posting:** I firmly oppose the gondola as no evidence has been provided to show that one would be necessary or beneficial. Please put a hold on the gondola project to do a comprehensive traffic study before allowing it to continue.

**Comments for Public Posting:** I support this motion. We need real traffic solutions, not an overpriced, 2-mile amusement ride. I oppose the LA ART gondola project.

**Comments for Public Posting:** I SUPPORT the Motion to put a HOLD on the project and do a comprehensive, objective traffic study for Dodger Stadium. I OPPOSE the LA ART Gondola Project. This project would use public land and airspace and would fly right over LA State Historic Park, impacting the full use of open green space that our community fought for years to activate. It removes public sidewalk space instead of enhancing pedestrian pathways. The EIR doesn't provide guarantees that taxpayer funding wouldn't be used for this project, despite that it will be serving billionaires. LA Metro wants to let a billionaire build an aerial gondola over neighborhoods and a community that have already suffered massive displacement at the hands of the stadium, a gondola that research shows won't reduce traffic or green house emissions...how is this a good idea? NO to the gondola.
