**Comments for Public Posting:** I am writing to urge the council to give their authorization for DGS to form a lease with kirby for alvarado property. We need this done yesterday. This also should have been done with the land, now unused teacher parking lot, at NW corner of montana and glendale (formerly liquor store). Report from the Municipal Facilities Committee relative to authorizing the Department of General Services to negotiate and execute a lease with Kirby Properties c/o Reliable Properties, Inc., for the property located at 1455-1461 North Alvarado Street, in Council District 13, for use as an interim housing facility with a proposed lease rate is \$10,500 per month, subject to a 3 percent annual increase. (Also referred to the Ad-Hoc Committee on COVID-19 Recovery and Neighborhood Investment)

**Comments for Public Posting:** I think that a tiny home village for our unhoused constituents is a wonderful idea. I drive by that empty lot and I'm happy to know that it's being considered as a village for vulnerable members of our society. We need to also consider the solution that Seattle put into place which was to occupy empty hotels and malls for those who are in need of a home. We are still dealing with a pandemic and rent forgiveness needs to also be put into place. Other cities and countries have done a wonderful job of ensuring that everyone has access to shelter and I don't see why we can't do the same.

**Comments for Public Posting:** We have a moral imperative to fully use any and all resources to house our fellow Angelenos experiencing homelessness, especially during a pandemic. As a resident of Echo Park, I've befriended folks living on Sunset's sidewalks and in the park; it's heart-breaking to see them continuously displaced by street sweeps with no permanent shelter to call home. I hope the council makes the humane choice.
