Comments for Public Posting: My name is Norma Hernandez, and I am here today to speak about the critical importance of the Rapid Response Senior Meal Program. This program has been a cornerstone of support for our community's senior citizens, ensuring they receive nutritious meals and vital social connections. As we face the possibility of funding cuts to this program, I urge decision-makers to consider the profound impact it has on the lives of our elderly population. Many seniors rely on these meals not just for nutrition but also for the companionship and sense of community they provide. For those living alone or struggling with limited resources, these meals are often a lifeline. Moreover, the Rapid Response Senior Meal Program plays a crucial role in promoting the health and well-being of our seniors, reducing food insecurity, and combating social isolation. Cutting funding to such a pivotal program would not only jeopardize the physical health of our elderly but also compromise their mental and emotional well-being. I urge you to prioritize the preservation and support of the Rapid Response Senior Meal Program. Our seniors deserve our unwavering commitment to ensuring they can age with dignity and security. Thank you for considering my comments.
