Council File No: 23-0796-S1

Comments for Public Posting: I am a resident of Lincoln Heights. I am opposed to this project and ask that you approve the appeal for the following reasons: - The environmental testing was denied, despite contaminated soil remedied. - Across the street it will damage the park's ecosystem and endangered species. Lincoln Park is the oldest ecosystem habitat in all of Los Angeles. - 80% luxury units will not solve the housing crisis in a district with the most evictions. - The removal of 42 trees including 5 protected sycamores. - Our community income bracket is under extremely low income. - It will lead to displacement and increase the cost of rent in the area. - The project is rejected by the neighborhood council. This project was NOT MADE WITH THE COMMUNITY IN MIND. ONLY GREED. Help to PRESERVE the culture, history and community of Lincoln Heights. Stop gentrification. Take all into consideration. Again, I am opposed to this project and ask that you approve the appeal.
