**Comments for Public Posting:** I am in full support of a survey of the Mt. Washington, Glassell Park, Montecito Heights and Lincoln Heights areas (all Very High Fire Severity Zones) for new Red Flag Day parking restrictions. Development in these areas has exploded and it is virtually impossible for residents to navigate these narrow streets when construction vehicles are parked or moving on the roads. If an emergency vehicle needs to respond in these areas, they should have unfettered access - that means no one should be able to park on these substandard streets on Red Flag Days. It has been a long time since these areas were surveyed, and there are simply not enough signs to adequately clear the streets for emergency vehicles on such days.
