Comments for Public Posting: My older son went to Lumbini and was always worrisome dropping him off and picking him up with the homeless encampments being so close. I want the children to feel safe when they are at school. They are too young to be dealing with daily rants and noises from the homeless encampments near the school. My younger son will be starting at Lumbini soon and I don't want to be worried about his safety.

Comments for Public Posting: Please do some good and help add Lumbini Child Development Center under 41.18. There actually needs to be many more areas in this location included in this. Being a resident across the street for years we have first hand experience that this needs to be done and much more! People own property and live with families in this neighborhood and it needs to be kept safe! It really is scary to go out the doors day or night which is a sad thing to say. The city would be doing something good for once to keep our neighborhood from becoming a total ugly mess. The homeless need to go and be dismissed from our walkways and neighborhood. It has gotten so bad in the last couple years. There are kids and also many elderly in our complex and I have to help walk by some of them on numerous occasions because I am afraid homeless will hurt them. I'm afraid oh my safety and others as they walk the streets to do errands, etc. My wife sadly is afraid to leave our place and go outside unless I am going with her. That is a total shame! There any many young families in our complex and having homeless outside our doors, exposed needles, feces, small and/or massive homeless encampments on our sidewalks directly outside our entrance doors in unacceptable. So, there has to be enforcement or it will only get worse very soon!

Comments for Public Posting: Please remove homeless encampments. This is not appropriate, healthy or safe for homeless encampments to be near any schools, churches or any child care centers. We need to keep our children safe. City Council please add the Lumbini Child Development Center across the street from Tokyo Villa to City Ordinance 41.18 enforcement. Thank you.

Comments for Public Posting: Hello, I am writing to say that I personally believe that the Lumbini Child Development Center should be added to City Ordinance 41.18. If you've ever seen the area, it is unfortunately swarmed with homeless people which in my personal opinion makes the area not only unsafe for the children at the center, but just unsanitary as a whole. Little Tokyo is an oasis within downtown LA, and keeping it safer and cleaner would make all of the residents here happier. I know policing the homeless is a difficult job, so thank you for all of your hard work concerning the homelessness crisis. Thank you. Colin

Comments for Public Posting: I strongly support adding Lumbini Child Development Center to City Ordinance 41.18. As a grandmother, I am extremely concerned about safety of the young kids around the development center, and also the ability to maintain sanitation so that these young children are in a clean and safe environment. These children (and their parents) have a legal right to be in a safe environment at all times when in or being dropped off/ picked up at the center, without having to deal with encampments and loitering that currently is around the center.

Comments for Public Posting: Residents in Little Tokyo are really excited about the City Ordinance 41.18 enforcement. Many residents here are elderly and need to walk to grocery stores, doctor's offices, pharmacies, etc. It has become more and more difficult to walk to these places because of numerous encampments on the sidewalks blocking us from walking straight. Many of us have tripped and fell on the streets while trying to avoid getting too close to these encampments. Those homeless people are asking for money getting very close physically to us, pedestrians, and often follow us spitting toward us. While trying to go through the sidewalks, we need to watch for not only trash, but human wastes and needles. It has become necessary to avoid taking children with us if walking on the sidewalks around here. Hundreds of us here had dreams and plans to spend our retirement freely and safely, but now we cannot even walk on the sidewalks for our daily errands. Why can't we clean and wash the sidewalks? Why can't we build simple buildings to house those sleeping on the sidewalks? Many cities have taken actions and the cities are clean and safer. Please, please take actions. Each day counts.
