Bert Moklebust,

I am the owner of 1113 Toledo and emailing to dispute the Notice of Proposed Vacation. I own one of the four affected parcels on work order no. VAC E1401407

I officially disapprove of the proposed vacation due to the implications of safety and wellbeing. One of the parcels (5485-023-026) that gains acreage has already begun preliminary grading which shows that they are the intentions to develop on un-permitted land.

Thank you, your email has been received.

The Bureau of Engineering (BOE) has a new online Customer Service Request (CSR) application to receive all inquiries and requests that do not already have an avenue for submission in other BOE web applications. These include requests for clearances related to City Planning or LADBS building permits.

The CSR application, and all other BOE applications, are accessible through our online portal, which can be found at <http://engpermits.lacity.org/>.

The normal response time for CSR requests is one to three days, with a maximum of about a week during unusual periods. Requests are taken in the order received and are monitored closely to ensure that all are responded to. You will be notified by email when there is a response and can log in any time to check the status. In order to serve you better, requests and questions are no longer accepted via phone or email.
