Comments for Public Posting: Dear Council Members, I am writing to you to request your support for the CHIP draft #3 ordinance as recommended by the PLUM Committee (council file 21-1230-S5). The Planning Department has identified enough zoning capacity on our commercial corridors to meet the state mandate without the need to rezone single-family neighborhoods. This fact is supported by a letter from the State (Housing and Community Development-HCD) to Vince Bertoni dated November 18 that states the Draft as currently written meets the HCD's requirements for approval. We have a vast amount of space available to increase our need for additional housing, without destroying the areas zoned for single family homes. Part of what makes Los Angeles wonderful are the diverse communities that provide many lifestyle options. I urge you to represent all of the people in our city and support the CHIP draft #3 ordinance as recommended by the PLUM Committee (council file 21-1230-S5). Thank you, Susan Collins
