Comments for Public Posting: Is this Sewer Service Charge (SSC) increase necessary to keep up with the exorbitant DWP Salaries? Of all of the City jobs DWP positions are paid significantly more than the same positions in the rest of the city. DWP historically gets higher pay increases over the rest of the city bargaining units and they just hired a new General Manager at close or more than double what the previous one made. Maybe that is why the DWP wants to double our SSC? If the City is going to elevate salaries of DWP employees over the rest of the City, they should not do it at the expense of the rate payers. Please increase what is necessary but bring the DWP salaries in line with the rest of City workers. Respectfully Tony Pircey
