**Comments for Public Posting:** It's important for the Council to vote AGAINST the Bulgari Hotel project. The fact that the SMMC, Tree People, Sierra Club, etc. have given their thumbs-down should be taken seriously. The very last thing we need in Los Angeles is a hotel in the middle of a richly wooded part of the City. If we've learned anything from climate change it's certainly to NOT create even more hardscape than we have. To NOT push wildlife out of the way so that a few developers may line their pockets. We pay a lot of money in taxes here in order to live in a place with a lovely ecology. Said ecology has been eroded enough by monied interests. Let's put the lid on this and other similar projects.

**Comments for Public Posting:** Dear all, As a resident of the Bel Air Glen Homeowner's Association for the past 20+ years and as the President of that Association, I am, and we are, opposed to the planned Bulgari Hotel project. The traffic on Mulholland in order to access the construction as well as the resulting congestion, air pollution, and danger to wildlife all as a result of a commercial construction projection in the middle of an entirely residential neighborhood is not to be condoned. Further, should a commercial project actually be built, the additional traffic, noise, nuisance and congestion resulting from hotel guests, as well as restaurant and banquet attendees will only serve to make such a project's approval appear in hindsight seen to be an unreasonable dereliction of our City officials' duties to protect and serve their constituents, rather than acceding to more financially lucrative lobbying interests. On behalf of the 220 households in our Association, I certainly hope the City Council reconsiders and denies this project. Thank you for your service. Kenneth A. Linzer, Esq.
