**Comments for Public Posting:** I'm Writing in support of this motion to prevent the destruction affordable rent housing. Displacing families for empty luxury homes tears the community apart. Boyle Heights is already segregated from LA by the freeways , here's your chance to do something about it

**Comments for Public Posting:** I'm Writing in support of this motion to prevent the destruction affordable rent housing in Boyle heights. The housing being built does not respond to the local community needs, it displaces low income people and destroys current rent control affordable housing. Allowing for demolitions is not taking into consideration of the current impact on the neighborhood. Allowing demolitions to continue will continue to contribute to the homelessness crisis in LA. This motion protects low income tenants and prevents homelessness.

**Comments for Public Posting:** I am writing in support of the resolution to stop the demolition of occupied units in Boyle Heights. Too many of our neighbors have already been evicted and as the pandemic protections expire, even more people are at risk of losing their homes. Destroying existing affordable units leads to more displacement and more homelessness.

**Comments for Public Posting:** My public comment is in strong support of this motion to prevent the destruction of affordable rental housing. Current efforts by the city to build housing do not respond to the needs of our local community because they displace low income people, destroy existing rent-controlled affordable housing, and new construction efforts actively impact our neighborhoods.

**Comments for Public Posting:** I urge you to vote in support of this measure to prevent housing demolition in Boyle Heights. As a tenant in Boyle Heights it is very important to me that homes in my community stay homes -- demolitions lead to the construction of housing that is not affordable for me or my neighbors, whereas keeping families in their homes preserves affordable housing. In the midst of a crisis of homelessness in the city of Los Angeles, this motion will help stop the displacement and eviction of low-income, long-time Boyle Heights residents and families. Thank you.

**Comments for Public Posting:** I would like to comment in support of the KDL motion for Interim Control Ordinance to prohibit the issuance of any demolition, building, grading, and any other applicable permits involving properties improved with existing occupied residential dwelling units pending adoption of the Boyle Heights Community Plan. This motion would stop the destruction of any currently occupied residential units We must stop the destruction of any more affordable lower cost housing . Housing that is not low income housing is being proposed to be built and this would not increase the amount of low-income housing and does not meet the needs of Boyle Heights or for that matter any other part of Los Angeles. We should never eliminate lower cost housing by replacing it with higher income housing this goes against what we are trying to do to produce a larger supply of low cost housing in Los Angeles and in Boyle Heights specifically thank you, Philip D.Capo
