**Comments for Public Posting:** Dear Councilmember Raman-Harris-Dawson, I hope this letter finds you well. As a concerned resident of our community, I am writing to bring to your attention some pressing matters regarding affordable housing in our district. It is crucial that we strive to provide safe and affordable living options for all members of our community, particularly those who are most vulnerable. I would like to highlight two organizations that have demonstrated a strong commitment to nonprofit affordable housing: Jamboree Housing Corporation and Mercy Housing. Both of these organizations have extensive experience in developing sustainable, high-quality affordable housing and could serve as valuable partners in our efforts to address the housing crisis. Additionally, I feel compelled to express serious concerns regarding the potential extension of the contract with Enterprise Community Partners, Inc. Given the significant challenges we face, it is vital for our leadership to prioritize partnerships that yield effective and impactful results for our community. Many residents believe that continuing this relationship may not align with the urgent need for innovative and responsive solutions to the housing issues we are facing. Should this contract be extended, it may lead to widespread dissatisfaction among your constituents, jeopardizing your support in future elections. Thank you for your attention to these matters. I hope you will consider engaging with organizations that truly prioritize the needs of our community members and take into account the voices of your constituents. Collaboration and transparency are essential in ensuring that our community can thrive and meet the housing needs of all individuals. Sincerely, Monisha Parker
